Practical Experience

Personal Projects | Java Development

Remote — Jan 2026 – Present

- Designed and developed a Resume Builder API using Java and REST principles, allowing dynamic generation of professional resumes.
- Built a Personal Portfolio Website using HTML, CSS, and JavaScript to showcase projects and skills professionally.

Projects

Resume Builder API | *Java*

- Developed a backend service to generate professional resumes based on dynamic user input.
- Features include customizable templates, export functionality, and data validation.
- GitHub: https://github.com/Ravi-yadav-09/resume-builder-api.git

Typing Speed Test | *Java*

- Desktop application that measures typing speed and accuracy with real-time feedback.
- Features include start/reset, new sentence, view history, and dark mode.
- GitHub: https://github.com/Ravi-yadav-09/SpeedTypePro.git

Portfolio Website | *HTML, CSS, JavaScript*

- Designed and built a responsive portfolio website to showcase projects, resume, and contact information.
- Implemented clean UI, interactive sections, and mobile compatibility.
- Live: https://ravi-yadav-09.github.io/portfolio/
